

Format for sharing Communal Establishment Data

1. Communal establishment (CE) data are provided to General Register Office for Scotland (GROS) from a variety of sources. Once all CE data are collated, an important step is to validate this data with Local Authorities.
2. GROS has to ensure that we have permission to share the data and that we do not inadvertently disclose information about individuals. In addition, the data sent to Local Authorities are confidential, and should not be used further. With this in mind the following tables illustrate the tabulations of data that we propose to share with local authorities in future.
3. The tables have these features.
 - Zeros in the tables have been retained
 - Small values less than 5 have been indicated by an asterisk (*)
 - Other values have been rounded to the nearest 5
 - Due to rounding, totals shown may not be equal to the sum of the constituent parts.

Note: HARG members are asked to comment on the format of the tables for Communal Establishment Data and whether this is suitable for validation purposes.

GROS: Household estimates and projections branch
March 2011

Sample Tables of Communal Establishment data for validation purposes**Table 1**

Category	Female Total	Male Total
Adult Care	685	330
Children's Care	25	30
