2008	77	2	3	23	23	26
2009	61	-	-	16	25	20
2010	64	-	-	23	21	20
2011	53	-	1	14	19	19
2012	49	-	1	9	16	23

**Footnote**

1) For 2000 onwards, ICD-10 codes V01-V80, V87, V89 and Y850 are used to produce the number of deaths from 'road transport' accidents. These codes relate to the types of transport used, rather than the location of the accidents, so these figures will include for example deaths from accidents involving cars in car parks and other 'off-road' locations.
